Forest Ecology and Management, 41 (1991) 323–324
Elsevier Science Publishers B.V., Amsterdam

Author Index

Adams, P.W., Flint, A.L. and Fredriksen, R.L. (Corvallis, OR, USA)
Long-term patterns in soil moisture and revegetation after a clearcut of a Douglas-fir forest in Oregon 249
Alig, R.J., *see* Wyant, J.G. et al.
Allen, H.L., *see* Vose, J.M. and Allen, H.L.
Anderson, J.M., *see* Emmett, B.A. et al.
Bechtold, W.A., *see* Wyant, J.G. et al.
Bellot, J. (Zaragoza, Spain) and Escarre, A. (Alicante, Spain)
Chemical characteristics and temporal variations of nutrients in throughfall and stemflow of three species in Mediterranean holm oak forest 125
Bradley, J.S., *see* Casotti, G. and Bradley, J.S.
Brooks, R.T., *see* DeGraaf, R.M. et al.
Bunting, S.C., *see* Rego, F.C. et al.
Casotti, G. and Bradley, J.S. (Murdoch, WA, Australia)
Leaf nitrogen and its effects on the rate of herbivory on selected eucalypts in the jarrah forest 167
Da Silva, J.M., *see* Rego, F.C. et al.
DeGraaf, R.M., Healy, W.M. and Brooks, R.T. (Amherst, MA, USA)
Effects of thinning and deer browsing on breeding birds in New England oak woodlands 179
Drechsel, P., *see* Zech, W. and Drechsel, P.
Emmett, B.A. (Bangor, UK), Anderson, J.M. (Exeter, UK) and Hornung, M. (Grange-over-Sands, UK)
The controls on dissolved nitrogen losses following two intensities of harvesting in a Sitka spruce forest (N. Wales) 65
Nitrogen sinks following two intensities of harvesting in a Sitka spruce forest (N. Wales) and the effect on the establishment of the next crop 81
Escarre, A., *see* Bellot, J. and Escarre, A.
Faber, P.J. (Wageningen, Netherlands)
A distance-dependent model of tree growth 111
Flint, A.L., *see* Adams, P.W. et al.
Francombe, C., *see* Young, T.P. and Francombe, C.
Fredriksen, R.L., *see* Adams, P.W. et al.
Granhall, U., *see* Slapokas, T. and Granhall, U.
Healy, W.M., *see* DeGraaf, R.M. et al.
Hoffman, B.J., *see* Williams, R.A. et al.
Hornung, M., *see* Emmett, B.A. et al.
Ishizuka, M., *see* Osawa, A. et al.
Kadeba, O. (Akure, Nigeria)
Above-ground biomass production and nutrient accumulation in an age sequence of *Pinus caribaea* stands 237

Kanazawa, Y., *see* Osawa, A. et al.
Kolstrom, T., *see* Miina, J. et al.
Mayhead, G.J., *see* Ranasinghe, D.M.S. and Mayhead, G.J.
Miina, J., Kolstrom, T. and Pukkala, T. (Joensuu, Finland)
An application of a spatial growth model of Scots pine on drained peatland 265
Osawa, A., Ishizuka, M. and Kanazawa, Y. (Sapporo, Japan)
A profile theory of tree growth 33
Pacheco Marques, C. (Vila Real, Portugal)
Evaluating site quality of even-aged maritime pine stands in northern Portugal using direct and indirect methods 193
Pukkala, T., *see* Miina, J. et al.
Quinby, P.A. (Toronto, Ont., Canada)
Self-replacement in old-growth white pine forests of Temagami, Ontario 95
Ranasinghe, D.M.S. (Nugegoda, Sri Lanka) and Mayhead, G.J. (Bangor, UK)
Dry matter content and its distribution in an age series of *Eucalyptus camaldulensis* (Dehn.) plantations in Sri Lanka 137
Rego, F.C. (Vila Real, Portugal), Bunting, S.C. (Moscow, ID, USA) and da Silva, J.M. (Oporto, Portugal)
Changes in understory vegetation following prescribed fire in maritime pine forests 21
Renes, G.J.B. (Den Haag, Netherlands)
Regeneration capacity and productivity of natural forest in Burkina Faso 291
Seymour, R.S., *see* Williams, R.A. et al.
Slapokas, T. and Granhall, U. (Uppsala, Sweden)
Decomposition of litter in fertilized short-rotation forests on a low-humified peat bog .. 143
Vose, J.M. (Otto, NC, USA) and Allen, H.L. (Raleigh, NC, USA)
Quantity and timing of needlefall in N and P fertilized loblolly pine stands 205
Williams, R.A. (Ruston, LA, USA), Hoffman, B.J. and Seymour, R.S. (Orono, ME, USA)
Comparison of site index and biomass production of spruce-fir stands by soil drainage class in Maine 279
Wyant, J.G. (Fort Collins, CO, USA), Alig, R.J. (Triangle Park, NC, USA) and Bechtold, W.A. (Asheville, NC, USA)
Physiographic position, disturbance and species composition in North Carolina coastal plain forests 1
Young, T.P. and Francombe, C. (Nairobi, Kenya)
Growth and yield estimates in natural stands of leleshwa (*Tarconanthus camphoratus*) 309
Zech, W. and Drechsel, P. (Bayreuth, FRG)
Relationships between growth, mineral nutrition and site factors of teak (*Tectona grandis*) plantations in the rainforest zone of Liberia 221

Forest Ecology and Management, 41 (1991) 325–327
Elsevier Science Publishers B.V., Amsterdam

Subject Index

Abies
Comparison of site index and biomass production of spruce-fir stands by soil drainage class 279
Acidity, *see* Environmental conditions
Arbutus
Chemical characteristics and temporal variations in throughfall and stemflow in Mediterranean holm oak 125
Biomass
Comparison of site index and biomass production of spruce-fir stands by soil drainage class 279
Above-ground biomass and nutrient accumulation in *Pinus* 237
Birds, *see* Faunal composition
Browsing, *see* Herbivory
Burning, *see* Management practices
Clearcut, *see* Management practices
Decomposition
Decomposition of litter in fertilized short-rotation forests on a low-humified peat bog .. 143
Douglas-fir, *see* Pseudotsuga
Drainage, *see* Soil conditions
Dry matter
Dry matter content and distribution in an age series of *Eucalyptus camaldulensis* 137
Environmental conditions
Decomposition of litter in fertilized short-rotation forests on a low-humified peat bog .. 143
A spatial growth model of Scots pine on drained peatland 265
Eucalyptus
Dry matter content and distribution in an age series of *Eucalyptus camaldulensis* 137
Leaf nitrogen effects on herbivory on eucalypts 167
Faunal composition
Effects of thinning and deer browsing on birds in oak woodlands 179
Fertilizers, *see* Nutrient dynamics
Fir, *see* Abies
Fire, *see* Management practices
Grazing, *see* Herbivory
Growth and yield, estimation, *see* Modelling
Growth
Profile theory of tree growth 33
Distance-dependent model of tree growth 111
Harvesting, *see* Management practices
Herbivory
Leaf nitrogen effects on herbivory on eucalypts 167
Jarrah, *see* Eucalyptus
Leleshwa, *see* Tarconanthus
Litter-layer dynamics
Decomposition of litter in fertilized short-rotation forests on a low-humified peat bog .. 143

Management practices
Changes in understory vegetation following prescribed fire 21
Controls on dissolved nitrogen losses following two intensities of harvesting in Sitka spruce 65
Nitrogen sinks following two intensities of harvesting in Sitka spruce: effect on establishment of the next crop 81
Effects of thinning and deer browsing on birds in oak woodlands 179
Long-term patterns in soil moisture and revegetation after a clearcut of Douglas-fir 249
Modelling
Profile theory of tree growth 33
Distance-dependent model of tree growth 111
Modelling
Evaluating site quality of pine using direct and indirect methods 193
Modelling
A spatial growth model of Scots pine on drained peatland 265
Modelling
Growth and yield estimates in natural stands of *Tarconanthus* 309
Moisture regime
Long-term patterns in soil moisture and revegetation after a clearcut of Douglas-fir 249
Natural forest, *see* Structure and function, ecosystem
Needlefall
Needlefall in fertilized loblolly pine 205
Nitrogen, *see* Nutrient dynamics
Nutrient dynamics
Controls on dissolved nitrogen losses following two intensities of harvesting in Sitka spruce 65
Nitrogen sinks following two intensities of harvesting in Sitka spruce: effect on establishment of the next crop 81
Chemical characteristics and temporal variations in throughfall and stemflow in Mediterranean holm oak 125
Decomposition of litter in fertilized short-rotation forests on a low-humified peat bog .. 143
Leaf nitrogen effects on herbivory on eucalypts 167
Needlefall in fertilized loblolly pine 205
Growth, mineral nutrition and site factors of *Tectona* 221
Above-ground biomass and nutrient accumulation in *Pinus* 237
Oak, *see* Quercus
Chemical characteristics and temporal variations in throughfall and stemflow in Mediterranean holm oak 125
Peatland, *see* Environmental conditions
Phillyrea
Chemical characteristics and temporal variations in throughfall and stemflow in Mediterranean oak 125
Physiographic position
Physiographic position, disturbance and species composition in coastal plain forests 1
Picea
Controls on dissolved nitrogen losses following two intensities of harvesting in Sitka spruce 65
Nitrogen sinks following two intensities of harvesting in Sitka spruce: effect on establishment of the next crop 81
Comparison of site index and biomass production of spruce-fir stands by soil drainage class 279

Pinus
Changes in understory vegetation following prescribed fire 21
Self-replacement in old-growth white pine 95
Evaluating site quality of pine using direct and indirect methods 193
Needlefall in fertilized loblolly pine 205
Above-ground biomass and nutrient accumulation in *Pinus* 237
A spatial growth model of Scots pine on drained peatland 265
Productivity
Regeneration and productivity of natural forest 291
Profile theory
Profile theory of tree growth 33
Pseudotsuga
Long-term patterns in soil moisture and revegetation after a clearcut of Douglas-fir 249
Quercus
Chemical characteristics and temporal variations in throughfall and stemflow in Mediterranean holm oak 125
Effects of thinning and deer browsing on birds in oak woodlands 179
Rainforest
Growth, mineral nutrition and site factors of *Tectona* 221
Regeneration, *see* Structure and function, ecosystem
Revegetation
Long-term patterns in soil moisture and revegetation after a clearcut of Douglas-fir 249
Self-replacement
Self-replacement in old-growth white pine 95
Site quality
Evaluating site quality of pine using direct and indirect methods 193
Growth, mineral nutrition and site factors of *Tectona* 221
Comparison of site index and biomass production of spruce-fir stands by soil drainage class 279
Soil conditions
Comparison of site index and biomass production spruce-fir stands by soil drainage class 279
Species composition
Physiographic position, disturbance and species composition in coastal plain forests 1
Spruce, *see* Picea
Stemflow
Chemical characteristics and temporal variations in throughfall and stemflow in Mediterranean holm oak 125
Structure and function, ecosystem
Physiographic position, disturbance and species composition in coastal plain forests 1
Self-replacement in old-growth white pine 95
Regeneration and productivity of natural forest 291
Tarconanthus
Growth and yield estimates in natural stands of *Tarconanthus* 309
Teak, *see* Tectona
Tectona
Growth, mineral nutrition and site factors of *Tectona* 221
Thinning, *see* Management practices
Throughfall
Chemical characteristics and temporal variations in throughfall and stemflow in Mediterranean holm oak 125
Understory vegetation
Changes in understory vegetation following prescribed fire 21
